

How to take care of your TZURI GUETA jewelry

We pride ourselves on the quality of our hand-crafted jewelry, the high standard of our know-how.

Our customers' satisfaction is important to us.

Tzuri Gueta jewelry is guaranteed for one year subject to normal use of the product.

If the product you purchased is defective in any way, you may contact us:

Our jewelry is made with care and love, here are some tips to keep them like new

- 1  Tzuri Gueta jewelry is made of resin of silicone and textile, so avoid contact with water in performing your everyday activities. Remove jewelry prior to washing hands, swimming, showering, using cleaning products, etc.
- 2  The jewelry can be cleaned occasionally if necessary:
Soak it in mild soapy water, rinse with clean water and let it air-dry flat.
- 3  To open a piece of jewelry with a magnetic closure, do not pull on the ends.
Snap the piece open with a downward movement as if to break it in two.
- 4 You are strongly advised to store your Tzuri Gueta jewelry away from dust, smoke and perfume. Please keep your jewelry in the silk pouch, provided at the time of purchase.
- 5  If the fabric frays or unravels slightly, trim the thread closely, then apply a drop of clear nail polish. If you wear silver jewelry, the rubbing of the silver against the textile wire can damage your jewelry.
- 6  Aside from this type of operation to stop thread from fraying, *do not attempt to repair by yourself* your Tzuri Gueta jewelry; This would damage the silicone and make any repair in the workshop impossible.
- 7 Silicone-fed lace is a shape-memory material, that is, one that “remembers” its original shape. Tzuri Gueta jewelry should be stored flat to maintain its shape and prevent it from becoming distorted.
- 8 Jewelry repairs may be possible even after the one-year warranty has expired, depending on the condition of the piece. Please contact us and we will provide you, within 72 hours, an estimate for the cost of any repairs.
